Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. In races of intermediate lengths the weights for the shorter distance shall be carried.

In races exclusively for three years old or for four years old, the weight shall be 126 lbs., and for two years old, 122 lbs.

Except in handicaps, and in races where the weights are fixed absolutely in the conditions, fillies two years old shall be allowed 3 lbs. and mares three years old and upward shall be allowed 5 lbs. before the 1st of September and 3 lbs. afterward. Geldings shall be allowed 3 lbs.

Welter weights shall be 28 lbs. added to the weight for age.

In heavy handicaps the top weights shall not be less than 140 lbs.

In all handicaps the top weight shall not be less than 126 lbs.

If, in a handicap for which there is a minor forfeit declared by a fixed time the highest weight accepting was originally less than 126 lbs., it shall be raised to that weight, and the other acceptances equally.

Scale of Weights Adopted by the Western Turf Congress.

The best example of the value of the BREEDER AND SPORTSMAN is its appreciation by the people of California, who make it the EXCLUSIVE MEDIUM for advertising everything appertaining to the Turf and all Field Sports, as well as for Sporting Goods, Medicines for Horses and other Animals, Racing Gear, etc. As the BREEDER and SPORTSMAN is the only paper of its class west of Chicago, and the representative of the vast Breeding Interest of California, its value is apparent. It is essentially a newspaper, containing all the Gossip and Sporting Events of the day, given in such a bright, entertaining and readable manner as to make the paper a necessity to everybody interested in horse matters and legitimate sport. Sample copies are free, and will be sent on application to any address.
